## Close Money Market

It Somewhat Interferes With Business Transactions

BURING THE WEEK JUST PAST.

One Million Dollars in Gold Shipped Abroad by One Firm—Over Two Million Paid Out by the United States Treasury—Interior Trade Centers Report Activity.

New York, Oct. 5.—R. G. Dun & Company's weekly review of trade says: A closer money market, as was anticipated last week, has checked operations to some extent. The shipment of \$1,000,000 gold to Europe by a firm engaged in placing two large loans for foreign governments, and therefore anxious to prevent further advance in Bank of England rates, was all the clearer evidence of the actual demand abroad because made at a small loss if reckoned at the current rate of exchange.

A sudden fall in the rate from \$4.88 to \$4.86, was followed by an upward movement again, and it seems not improbable that the exigencies of the Argentine Republic and the pining of the Russian loan may for some time to come affect the money market here. October disbursements and moderate purchases of bonds have made the market easier for the present, but the rate on call, after rising from 5½ to 8 per cent., and even to 30 per cent. for a short time, is yet about 7 per cent., with no improvement in the commercial loan market. While the treasury paid out \$2,800,000 more than it took in, the interior demand is everywhere increasing, with some stringency at Cleveland, an easier feeling at Boston, and a tight money market at Philadelphia. It is an encouraging fact that all reports represent collections as at least fairly satisfactory, and at most points the situation in that respect is good.

The reports of business from all parts of the country show increased activity on the whole, though in some branches trade is not up to the September level. Boston reports fair sales of wool and more inquiry, larger sales of leather at firm prices, and also of lumber. Philadelphia notes improvement in wool, liquors and all branches of the iron and steel business, with chemicals quiet but firm, dry goods but moderately active, and clothing not as active as could be desired, and some slackness in groceries, especially in sugar and coffee. Chicago finds business larger than a year ago, with heavy country orders, showing a large demand and easy financial conditions throughout the west.

The year's receipts of cereals fall off a little, but of provisions are nearly doubled. Cleveland finds all branches improving, and factories full of orders. Pittsburgh notes higher prices for iron and steel, glass business active, with works all operating, and the local trade dull waiting water for the river movement. Throughout the west excellent crops are the basis of large buying by the farming districts, and confident hopes as to the trade for the rest of the year. The bank exchanges for September show an increase over last year of only 2 per cent. at New York; 2½ per cent. at Boston, Philadelphia and Chicago, and 7½ per cent. at all other cities taken together.

The iron business is in some danger of running into an unhealthy "boom," so great is the anxiety of many to stimulate the demand. Several large furnaces are about going into blast, and southern No. 1 is still sold here at \$16.75, but higher prices than \$18 are paid for desired brands, which are scarce, and structural, plate and wrought pipe are strong, but of bar there is not much buying, and some mills are inviting orders at \$1.85. Rails have actually sold for \$29 in considerable quantity at eastern works, but Philadelphia quotes \$31 and the west correspondingly higher prices. Only 3,300 miles of railroad have been built in nine months of this year, and it is still an open question how long the demand for iron and steel products in the aggregate will equal the constantly increasing supply.

The cotton manufacture has reason to rejoice at the collapse of the Liverpool corner, and the price of raw cotton has declined here three-eighths of a cent, with sales of 340,000 bales. Wool manufacturers are buying a little more freely, and inquiring more, though prices of goods do not improve and sales are larger only in some branches. The wool market shows a better tone, because concessions in price have induced larger transactions, but the high prices asked still push consumers to take a great deal of cheap foreign wool instead of American.

The sugar trust seems not unlikely to follow the copper syndicate and the cotton corner, at least as far as prices are concerned. Raw sugar is lower, the demand for consumption being slack, and meanwhile heavy sales of sugar trust have depressed the price to about ninety cents. Cotton oil trust is also heavily sold and declined sharply. Tin is lower at 20½ cents, and lead quiet at 3.9 cents.

The coal market improves but slightly in amount of sales, and not at all in prices, so that attacks upon the coal carrying stocks have been encouraged. The market for railroad stocks has been depressed by scarcity of money, even more than by failure of western roads to settle differences, and the average price of twenty most active stocks is seventy-five cents per share lower than a week ago. The market is one of speculators, and stocks are mainly held by strong parties, or the circumstances would have caused a greater decline of late.

Speculation in wheat has weakened, and the price is 1½c. lower, with sales of 46,000,000 bushels here.

The general level of prices is nevertheless a shade higher than Oct. 1, and has advanced 1½ per cent. since Sept. 1, a result due rather to partial failure of some crops than to increase of monetary supply. The volume of money in circulation is \$15,300,000 larger than Sept. 1, and the increase in three months has been \$8,600,000, but the aggregate is scarcely larger now than it was last December.

The business failures in the United States for the quarter ending with September, were 2,276, showing a decrease of 8, or 3.7 per cent. from last year, but for nine months the number has been 7,874, showing an increase of 329, or 4 per cent. The liabilities for the past quarter have been swelled by a few large failures to \$39,227,045, or 40 per cent. more than for the same quarter last year, but for nine months the aggregate has been \$103,053,850, an increase of 16½ per cent. The later weeks have shown a decrease both in number of failures and liabilities, and the average of liabilities to each failure is comparatively low even for the last quarter, being only about \$17,000, and for nine months about \$13,000, against \$12,000 last year.

The failures in Canada show a decrease of 5 per cent. in number, and 40 per cent. in liabilities for the past quarter; for the nine months there have been only 3 less than last year in number, but 16 per cent. less in liabilities.

For the past week the failures reported number 173 for the United States and 84 for Canada, 208 in all, against 192 last week, and 221 for the corresponding week last year—184 in the United States and 37 in Canada.

## A PECULIAR ACCIDENT.

Nearly a Ton of Pig Iron Falls on a Crowded Street Car.

ROCHESTER, N. Y., Oct. 5.—A frightful accident occurred at the West avenue canal bridge about 8 o'clock yesterday afternoon. The bridge is what is known as a lift bridge. Car No. 43 of the Caledonia line was passing over the bridge in a westerly direction when one end of the heavy troughs filled with pig-iron need to assist by its weight in raising and lowering the bridge, fell from its support, and the 1,500 pounds of pig-iron crashed through the top of the car exactly in the middle. The car was filled with passengers. The heavy pieces of iron were scarcely retarded in their fall by the thin roof of the street car and several of them fell with nearly the full force upon several persons who were seated on the left hand side.

The injured passengers are: John Metzler, a shoemaker of No. 171 Clifford street, seriously, perhaps fatally; Mary Birmingham, aged 13 years, of No. 50 Frost avenue, perhaps fatally; Rev. Mr. George Gonth, pastor of the German Lutheran church, of Pittsford, injured upon the side and one leg; Mr. and Mrs. Gonth, parents of Rev. Mr. Gonth and visiting in Albany, were also slightly but not seriously injured; Mr. Gonth, Sr., is employed in the National Exchange bank, of Albany.

California Knights Templar in Chicago.

CHICAGO, Oct. 5.—A solid Pullman train of six coaches, besides baggage and commissary cars, pulled into the Chicago and Northwestern depot at 11 o'clock Saturday morning carrying the Golden Gate Commandery No. 18, of San Francisco, and Sacramento Commandery No. 2, of Sacramento. The party consists of about 225 people, and they are en route to Washington to attend the triennial convocation. They were received by a committee of local Knights Templar and driven in carriages to the Palmer house.

Run on a Bank.

PEORIA, Ill., Oct. 5.—A canard set afloat several days ago in a jest, caused a run upon the Dime Savings bank of this city, and thousands upon thousands of dollars were withdrawn yesterday afternoon. All deposits were promptly paid out on demand, and so great was the wish of the officials to do what was right that they kept their doors open till 10 p. m. to give all who wished, a chance to withdraw.

Prairie Fires in Iowa.

SPIRIT LAKE, Iowa, Oct. 5.—A prairie fire started several miles east of town yesterday morning and has been burning all day. Driven by a strong wind from the south it has swept over a great portion of Dickinson county and seems to be beyond control. The damage already done is very heavy. A great deal of corn in the field and grain in stacks has been destroyed and probably some farm houses.

Killing Corner Rule.

ST. LOUIS, Oct. 5.—Leading grain speculators of the St. Louis Merchants' Exchange have petitioned for the abolishment of the "corner rule" that for years has made trading on "change dull, and induced every large speculator to boycott St. Louis. The present movement will result in killing "corner rule" and then "corners" will revive grain speculating trade in St. Louis.

Captured a Blood Vessel.

BALTIMORE, Oct. 5.—Col. H. P. Underhill, aged 50 years, dropped dead yesterday evening in the meeting hall of the Crescent Democratic society soon after the adjournment of the regular weekly meeting. Death was due to a rupture of a blood vessel in the brain. Col. Underhill was one of Baltimore's most prominent citizens. He was a director in the Drovers' and Mechanics' bank and engaged in the manufacture of grooved lumber.

A Negro Did It and Is Killed.

MOBILE, Ala., Oct. 5.—A negro named Stark, who is believed to have been the man who fired into a church at Mossy Point Wednesday night, killing D. A. McInness and wounding his daughter and Henry Blumer, was found to-day paddling down the Pascagoula river. He was ordered to stop, but instead hastened his speed, whereupon a deputy sheriff fired, killing him instantly.

## The Cruiser Baltimore

Official Report of the Trial Trip.

IT IS NOT AS FIRST REPORTED.

She Does Not Develop the Horse Power that the Contract Calls for—Increased Mail Facilities—Other Dispatches from the National Capital.

WASHINGTON, Oct. 5.—When the trial trip of the cruiser Baltimore was made last month, the wonderful performance in both horse power and speed that the vessel was reported to have made called forth expressions of admiration and congratulatory from naval officers and others interested in naval affairs.

According to the reports the vessel had developed 10,000 horse power and a speed of nearly twenty knots, thus proving her the third fastest vessel in the world, the fastest in the American navy, and the best in the world so far as structural capacity, power and speed are concerned. A few days ago, however, it began to be rumored that the horse power developed was not nearly so large as was thought, and there was some doubt expressed that the high rate of speed reported had been developed.

The official report of the trial board was made public yesterday and it sets at rest the doubts concerning speed, but not those regarding the horse power. The report shows that an average speed of 19.6 knots per hour were developed with 117.9 revolutions of the propeller, with 16 per cent. slips. The "slip" is the difference between the number of times the propeller revolves theoretically and the number of actual revolutions. The percentage is unusually large.

The indicator cards show that the horse power developed was 8,977.88, a deficiency of 22.12, the contract requirement being 9,000. An explanation is given however, in connection with this development that may yet prove the saving of the contractors, who will be obliged to pay \$2,200 penalty if the report is allowed to stand.

Two horse-power indicators, that had been thoroughly tested, were to be used on the trial trip, but these broke down, and two others, that had not been tested, were put in their places. It is thought that this substitution may have been the cause of failure, and Secretary Tracy has decided to allow the contractors, Crump & Sons, the privilege of having a new trial if they so desire. If they do not care to have a further test the present report will be approved, and the contractors will be obliged to pay the penalty of \$2,200.

The Bank Not There.

WASHINGTON, Oct. 5.—In July last newspapers of the Pacific coast called attention to the reported discovery of Capt. Bell, of the steamer A. B. Field, of an important bank eight miles off Neustaca, Ore., where he took large numbers of cod of excellent quality. The entire region was explored by the fish commission steamer Albatross during September, and the official report of Capt. Tanager, just received, disproves the existence of such a bank anywhere in this immediate vicinity.

A depth of fifteen fathoms was found about one mile off from shore along this part of the coast, while at a distance of eight miles from shore depths of sixty-eight to eighty-five fathoms occur. The waters deepens regularly from the shore outward, and the bottom consists mainly of the fine gray sand characteristic of the coasts of Oregon and Washington territory. No cod were found by the Albatross in this region.

Fast Mail Line Established.

WASHINGTON, Oct. 5.—A new fast mail train between New York and Chicago via the New York Central and Lake Shore railroads will be put on commencing Sunday. The train will leave New York at 8:50 a. m., reaching Chicago the next morning at 9:30. The increase in speed over trains now running is four hours. Superintendent Bell, who has just completed the arrangement, will have on the train sufficient force of postal clerks to have the through and way mail all distributed and ready for delivery by carriers upon the arrival of the train in Chicago.

Cabinet Meeting.

WASHINGTON, Oct. 5.—The regular meetings of the cabinet were resumed yesterday afternoon, all the members being present with the exception of Secretary Proctor. It is understood that the vacancy in the pension office was one of the topics discussed. Prior to the meeting the president was closeted for a long time with Senator Hisecock, of New York. His only other visitors during the forenoon were ex-Representative Weber, of New York, and Representatives Burrows, of Michigan, and Sherman, of New York.

Examiner of National Banks.

WASHINGTON, Oct. 5.—The comptroller of the currency has appointed Hon. Roswell Farnham, of Bradford, Vt., an examiner of national banks, vice John H. Sutor, resigned.

John Her Husband.

WILKESBARRE, Pa., Oct. 5.—Mrs. Marie Bowmar, widow of the late Col. A. H. Bowmar, United States engineer corps, died yesterday. Her husband built Fort Sumter and was at one time superintendent of the West Point military academy.

Fell Asleep on the Track.

MAUNCH CHUNK, Pa., Oct. 5.—Edward Dooley, a night track walker on the Lehigh Valley railroad at Newport, fell asleep on the track at midnight last night and was run over by the Western express and killed. Dooley resides at Warrior Run.

## THE CORONA SURVIVORS.

Some of Them Reach New Orleans and Tell of the Disaster.

NEW ORLEANS, Oct. 5.—A number of the survivors of the Corona reached the city yesterday. They were quickly surrounded by a crowd of weeping men and women, all anxious to learn the fate of some loved one. The scene was, indeed, heartrending, and strong men were compelled to turn aside their heads when some one in answer to a question would ascertain that the one they inquired for was among the lost.

Mrs. Henry Blanks was on the Corona with her sister, Mrs. Huff, and two children, en route to Columbia, as a passenger. She says: "I was standing in company with my sister, with my youngest child in arms, in the rear of the boat's cabin, when the explosion occurred. The chambermaid came running to us with life preservers, which we fastened on. Finally we got into the life boat, which had been successfully launched, but we hardly had been seated when the boat was swamped, throwing us all into the river. I, with my 3-year-old child in one arm, held on to a piece of wreckage until one of the St. Louis boats came and saved us. I told the child, 'Hold tight, daughter, God will save us.' Of my sister, Mrs. Huff, who is a widow, from Opelousas, I saw no more after our boat capsized."

A little 6-year-old boy of Mrs. Henry Blanks, who was blown into the air by the explosion, says: "I was out looking at Capt. Sweeney fixing the electric light and then went into the cabin and had hardly got as far as the office when I was blown into the air, and when I came down fell into the river on my back, when I came to the surface, I came to the surface, I caught onto a sack and an old man was near by holding a piece of wood howling for the yaws to come and save him. It was then that I was frightened and began to yell also, when the skiff came and took us on their boat, the City of St. Louis." The brave little fellow is badly hurt about the head.

The Times-Democrat's Bayou Sara, La., special says: The hull of the ill-fated steamer Corona has sunk in deep water. The cabin has been lodged at foot of Prophet's island, where it is being taken to pieces and everything that is worth anything is being put on the steamer Cleon. The body of Pat Lyon, steward, was found in a state room. After an inquest the body was buried and marked so it can be recovered by relatives. The body of Mrs. Huff has been found and sent to Baton Rouge. No other bodies have as yet been recovered. The values of Willie Nelson and J. N. Jordan have been found. Capt. Ben. Cornwall's injuries are not considered dangerous. He is badly burned about the face and hands.

ALMOST STARVING.

A Great Scarcity of Food and Water in Manitoba.

WINNEPEG, Man., Oct. 5.—Reports from ranching districts along the international boundary indicate great scarcity of food and water and stock is already suffering in consequence. Owing to the unusually dry season the amount of hay put up was small and immense stretches of prairie have lately been burned over. The outlook is so discouraging that some ranches offer to give their cattle away, knowing that death from starvation is almost certain.

Hon. McKenzie Bowell, Canadian minister of customs, has returned from a trip along the international boundary from the Red river to the Rocky mountains, and the object of his journey was to ascertain from personal observation the best means of preventing the smuggling of horses, cattle and whisky into Manitoba and the northwest. The entire distance, over 800 miles, is patrolled twice a week by mounted policemen and there being no settlements, the chances for successful smuggling are very small.

Though He Was a Murderer.

ARIZONA, Oct. 5.—The body of George Krauss, an employee of the Buckeye shops, was found on Beacon street this morning with a bullet hole in his breast. It was thought at first that he had been murdered. An investigation was made and the authorities came to the conclusion that he had committed suicide. Last night he had a quarrel, and fired a revolver in the darkness toward the men he was arguing with. It is supposed he imagined he murdered one of the men and then took his own life. Only one shot was heard by those living in the neighborhood.

Barred Under a Hot Roller.

FORT WAYNE, Ind., Oct. 5.—A traction engine and threshing machine, while being moved across a small stream near Janesville, this county, yesterday, broke through a bridge and landed in the water some thirty feet below. Five men were buried under the engine. John Sparks and Henry Wright were pinned beneath the boiler, and before they could be rescued had been soiled to death by escaping steam. They were literally cooked, their flesh peeling off their bodies. Three other men were severely but not fatally injured.

Cincinnati, Oct. 5.—A freight and an accommodation train came into collision at 5:30 yesterday morning near tunnel No. 26 on the Cincinnati Southern road, within a few miles of Somerset. No one was hurt and the damage will not exceed \$500.

Did Not Enjoy His Honors Long.

MANCHESTER, N. H., Oct. 4.—Gen. Asa P. Blunt died here this morning, aged 62. He served through the rebellion as adjutant of the Third Vermont volunteers. He received his commission as major general, U. S. A., last Saturday.

Lottery Ticket Sellers Indicted.

CHICAGO, Oct. 5.—The grand jury today returned indictments against James E. Moore and other lottery ticket sellers in this city.

receive--and there is hardly a boat or train that doesn't bring us more or less freight. Let those who have crowded our rooms for the past three weeks answer the question. Not only do we supply seven-eighths of the retail patronage that buy their supplies in Maysville, but we also enjoy the trade of nearly every country merchant within fifty miles of our thrifty city. The great and only reason for our trade is that people have *learned to know values*, and know that they get them from us. We are constantly in the market and always on the alert for bargains, provided the qualities come up to our standard. Whenever we secure such, we let our customers share with us. In the past sixty days we have bought over **\$15,000 WORTH OF FINE CLOTHING** at about 60 cents on the dollar. We are selling these goods in proportion to what we paid for them and not at all at their real values, *and this is the reason why we are constantly crowded with customers.* DO YOU SEE? ### THE EVENING BULLETIN

DAILY, EXCEPT SUNDAY.

ROSSER & MCCARTHY,  
Proprietors.

SATURDAY, OCT. 5, 1889.

HON. LOGAN MCKEE, one of the 306 original Grant men at the Republican National Convention in 1860, died Thursday at Danville.

THE Rev. G. Washington Hatton, the colored orator who spoke here during the last campaign, has been rewarded with the position of janitor of the Custom House at Louisville. He got his appointment from Surveyor Collier.

THE stock of Kentucky whisky on hand August 31 is placed at the enormous quantity of 35,363,895 gallons, and the prediction is made that the '89-'90 crop will exceed that of all previous years, except, possibly, those of '81 and '82.

THE appointment of S. L. Blaine, of Youngstown, O., to be a Gauger in this district was officially announced from Washington City Thursday. It is hard on the Kentucky "pie-hunters" that they are shoved aside to give place to a member of the Blaine family from Ohio. But the Blaine family has to be provided for, it seems.

HON CHAUNCEY M. DEPEW, one of the most prominent Republicans of the land, made an interesting speech at the late convention of his party in New York--interesting from the fact that he went a little further than the usual run of Republican orators, and was honest enough to admit that "the surplus belongs to the people and represents unnecessary taxation." And he says it oughtn't be "trifled with or squandered." Mr. Depew is a level-headed statesman, and is in line with the Democrats on this subject.

REPUBLICAN pie-hunters are kicking more vigorously than ever at Harrison's slow method of dishing out the spoils. They say he is too bull-headed, and won't listen to their appeals. A Republican Senator who has been a frequent visitor at the White House during the present administration remarked the other day, with considerable emphasis, that "Mr. Harrison is getting himself cordially disliked because he professes to know it all, and does not think anyone capable of offering him suggestions."

SPEAKING of the Virginia gubernatorial contest, Senator Sherman says that he believes that the election of "General Mahone will be a bright, auspicious event in the history of the country." Many prominent Republicans "from all parts of Virginia" don't look at the matter in that light. At a conference in Richmond Thursday they declared that "he (Mahone) has debauched the party and made loyalty a matter of merchandise," and add that he has "forfeited his right to the confidence of the people of Virginia." And this is the administration's favorite in the Old Dominion.

#### More Suckers Caught.

Some old story. More suckers caught, this time at Augusta. A smooth-tongued stranger dropped into the town a few days ago. He was selling, or offering to sell, every species of household goods, says the Sun, "from stoves to the finest carpets, claiming he was a traveling agent for a monthly payment house in Cincinnati, and giving such prices that fairly eclipsed anything ever heard of in this section. A number of people swallowed the bait greedily, and in order to prove to the slick stranger they were all right, readily parted with a dollar or two dollars according to the size of their purchase. After working the town for all there was in it and collecting a good sum, he skipped out to other fields and pastures green to ply his scheme." And then it was learned there was no such house in Cincinnati. The fellow was a fraud of the first stripe. Don't deal with strangers. Buy from home merchants.

Those who have not dealt with us are especially invited to come in and try on some of our garments—bring a critical friend with you. You can never know how much better our goods are unless you call and see. Mothers say—and they know—that our BOYS' and CHILDREN'S CLOTHING is the handsomest and the cheapest in the city. Don't be gulled into buying poor Clothing by some sensational buncombe advertising, for ninety-nine times out of a hundred you will pay more for them than for our Tailor-Made Clothing. Come within the next ten days; we will show you bargains in every department. No matter what others may name, you will find our Superior Goods as low, if not lower.

JOHN T. MARTIN.

### BIG CROWD PRESENT

At the Germantown Fair Yesterday.  
A Fine Show of Stock—The  
Premium List.

Yesterday was a big day at the Germantown fair. The crowd present was as large as ever seen on the grounds.

The exhibition in the arena was an especially fine one, and the rings were hotly contested. Following is a list of the premiums:

#### HARNESS HORSES.

Stallion, 4 years old and over; Riddle & Conner, Boone County.

Stallion, 3 years old and under 4; J. J. Hunter, Millersburg.

Stallion, 2 years old and under 3; C. H. Crawford, Mason County.

Stallion, 1 year old and under 2; Lissou Conner, Robertson County.

Stallion, 1 year old; Jno. Marsh, Robertson County.

Stallion, any age; J. R. Mullins & Co., Covington.

Mare, any age; J. R. Mullins, Covington.

#### ROADSTERS.

Roadster stallion, J. R. Mullins & Co., Covington.

Roadster mare; Jas. Jeunings, Bracken County.

Roadster gelding; Jno. Molloy, Mason County.

#### CHAMPION RINGS.

Finest and best stallion, with 4 of his colts; W. R. Crinfield, Bracken County.

Finest and best mare, with 2 of her colts; Jno. Hunter, Millersburg.

Best harness gelding, 2 years old and under 3; Thos. Tyler, Germantown.

Best mare, under 1 year old; L. H. Manner, Mason County.

Best harness gelding 3 years old and under 4; Carpenter Bros. Millersburg.

#### NOTES.

"Everything goes." Wasn't it a daisy fair?

The floral hall premium list will appear in Tuesday's issue.

The crowd was estimated at twelve thousand. How's that?

The solo by Mr. John I. Mathews, "Old Kentucky Home," was rendered exquisitely, and the cheers that it brought forth could be heard for a good mile.

The crowds, the stock, the floral hall, everything proved that the Germantown fair is, as it is claimed to be, the banner fair in the State. Paste this in your hat.

W. P. Smoot as President, and J. E. Walton as Secretary have won golden words of praise as among the best officers the company has ever had. With such hustlers as these at the head and with an efficient corps of directors as they have, no wonder it is the fair.

HON. R. K. HART, of Fleming, has been appointed a commissioner from this Congressional district to represent Kentucky at the American Forestry Congress at Philadelphia October 15th to 18th.

MR. TOM BROWNING has been promoted by the firm of Compton, Ault & Co., of Cincinnati, and starts out next Tuesday to walk on the jobbing trade throughout the big cities in Northern Ohio and Indiana.

Buy your jewelry at Ballenger's and get a chance on that \$400 combination diamond ring, stud, earring and bracelet with every dollar's worth you purchase. Elegant line of wedding presents always on hand.

An Enquirer special from Chillicothe Thursday evening says: "Mortimer's Comedy Company in 'Larking' played to standing room only. The play and the company made a great hit." The company will appear here to-night.

DR. W. T. HORN, a Maysvillian, has been appointed a member of the Examining Board connected with the U. S. Navy, and his address hereafter will be 1702 Nineteenth street, N. W., Washington, D. C. For the past three years he has had charge of the U. S. Naval Hospital at Philadelphia.

THERE is talk of an agency in Maysville for Armour, the meat man of Chicago.

If you need a pair of spectacles, don't fail to read the important notice of Power Reynolds, in this issue.

MISS LOUISE MACE, formerly of this city, has charge of the children's cloak department at A. E. Burkhardt's, Cincinnati, and would be pleased to have her friends call when in the Queen City.

CHAMBERS BAIRD, the brilliant young editor of the Ripley Bee, and Miss Jeannette Gilliland were married Thursday evening. The bride is an accomplished and handsome young lady, popular in the social circles of that city.

THE Dover public school opened this week, with Professor F. A. Savage as Principal and Miss Lettie Evans Assistant. Miss Perry, of Maysville, will aid Mr. Savage in teaching for a while, as he has not entirely recovered from his recent illness.

DR. J. T. STRODE leaves this evening for Washington City to attend the Knights Templar triennial convale and will be gone about ten days. During his absence, Dr. H. M. Marsh, of Muncie, Ind., will have charge of his office and attend to all professional calls.

A SPECIAL train passed east over the C. & O. last night at 10:30 with a party of Knights Templar on their pilgrimage to the triennial convale at Washington City next week. Six or eight more extra trains will pass up to-night for the same point. The special bearing Maysville Commandery will leave between 8 and 9 o'clock.

AT Millersburg the other night Deputy Sheriff Joe Forsythe shot and fatally wounded a negro named Sylvester Williams. The Ford Dramatic Company was playing at Bryan Hall, and the negro, who was drunk, stood on the outside of the door and made indecent proposals to several white ladies who were going into the hall. Deputy Forsythe was sent for, and when the negro attempted to escape, shot him.

## IMPORTANT!
